

Amendments to the Specification

Page 1, lines 2-4, please amend the title as follows:

**INFORMATION DELIVERY MANAGEMENT APPARATUS, SYSTEM, AND
METHOD ~~MOBILE COMMUNICATION EQUIPMENT, INFORMATION DELIVERY~~
~~CHECK SYSTEMS, AND INFORMATION DELIVERY CHECK METHODS~~**

Page 7, line 20 through page 8, line 3, please amend the paragraph as follows:

In this case, the sender making the check request for the delivery status data after the delivery of the information can know that the receiver "prohibits" the check of the delivery status. Since then, the sender does not have to make access to the information delivery management apparatus in order to make a check request for the delivery status data. This can avoid waste communications between the ~~sender~~ sender mobile communication terminal and the information delivery management apparatus.

Page 12, line 1 through page 13, line 9, please amend the paragraph as follows:

In this case, the sender making the check request for the delivery status data after the delivery of the information can know that the receiver "prohibits" the check of the delivery status. Since then, the sender does not have to make access to the information delivery management apparatus in order to make a check request for the delivery status data. This can avoid waste communications between the ~~sender~~ sender mobile communication terminal and the information delivery management apparatus.
